

EMCO Building is engaged in the business of providing services of design and construction for major refurbishment, alteration and new build projects, providing a high level of service and quality to all sectors of the building industry. Ideally, we aim to become number one within the industry and this policy statement applies to all of our departments throughout the company.

Organisation commitment:

We are committed to implementing and maintaining an Environmental Management System that will improve its effectiveness and efficiency, ensuring that all services provided meet the requirements of our clients, legal obligations and other requirements in which the business operates. To ensure this, EMCO Building will pursue best practice in environmental management and environmental protection at all times.

Our Objectives:

- To minimise waste to landfill by achieving a 70% by volume recycling rate as reported monthly,
- To ensure compliance with all legal requirements by having no regulatory infringements or warnings, and
- To ensure that EMCO continues to operate in accordance with all environmental management legislation by ensuring that less than 2 penalties per year are recorded.

Resources:

Resources in terms of personnel, time, effort and financial outlay will be commensurate with the priority in which EMCO Building places on environmental management and will be made available in order to comply with all relevant legislation.

Organisational responsibilities:

In order to ensure that environmental management is successfully managed within EMCO Building, responsibilities have been allocated to positions and or individuals to ensure that an appropriate culture is adopted, developed and nurtured to protect the wellbeing of all Employees, Contractors, Visitors and other persons throughout all areas of its activities.

Senior Management:

The Managing Director and the Management Team accept overall responsibility for the effective management of environmental sustainment within its operations.

Managers, Supervisors and Employees:

All Managers, Supervisors and Employees are expected to accept responsibility for their actions, to report environmental concerns or breaches, and to behave in a manner that reflects best work practices and standards.
